Subject: RE: Update Request Leaking UST

Categories: EZ Record - Shared

Good morning Lisa,

Thank you for your response. Please update us as soon as you can. Forward momentum on cleanup efforts needs to be maintained and reported on to us to verify regulatory compliance: especially with a regulatory compliance inspection coming up for the site this summer. As a regulator I cannot be your consultant but I would be happy to offer guidance/information where appropriate. When can we expect to hear back from you?

Thanks,

Douglas E. Drouare, CPG

Subject: Update Request Leaking UST

Dear Douglas,

I wanted to touch base with you about your request for an update on the UST leak at Sac and Fox Truck Stop. I have an appointment to speak with Tribal Council about this issue. Once they authorize me to discuss the details I will forward the information to you.

I can tell you the tank is offline, and that there are no leaks occurring now. Teresa Armbruster and Mark Junker have worked and continue to work diligently to maintain communication and coordinate events with all parties involved throughout this process. We are confident that this event will be remedied without consequence.

Sincerely,

Lisa Montgomery
